

The Just-In-Time Learning Platform Built For How We Work Today

The way we learn at work is broken.

We rely on ineffective long-form content and uninspiring “in-person” training. Reps take a course, get certified, and go back to work feeling more like they’ve checked a box than learned something.

Spekit is the new way to learn at work. Our platform delivers the knowledge your team needs—when and where they need it. The result? Enablement teams have a greater impact with fewer resources and sales productivity soars.

Accelerate training and tool adoption with contextual, self-guided learning

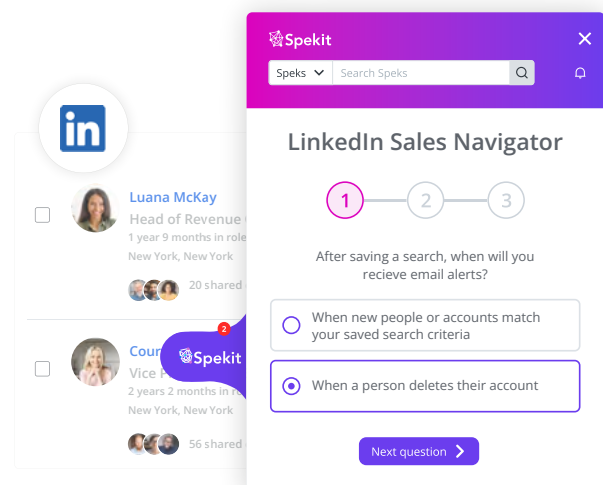

Spekit helps you onboard new employees and easily share knowledge, all within the flow of work.

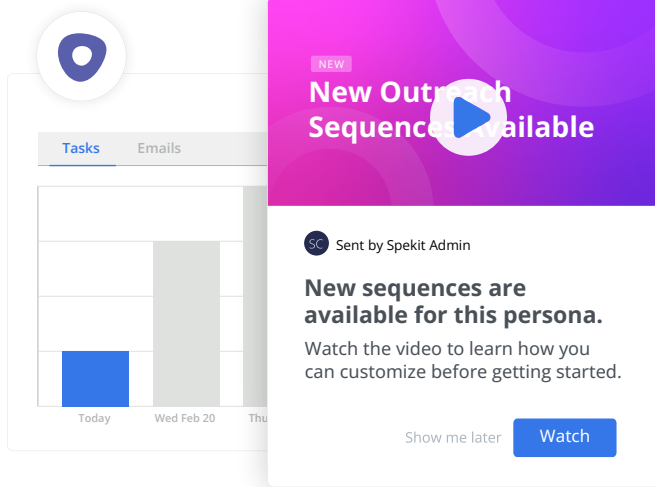

- Drive Salesforce adoption with our one-of-a-kind one-click integration
- Equip reps with bite-sized, on-demand learning via Speks
- Centralize knowledge and keep it organized with Topics

Deliver knowledge and guidance without disrupting revenue-generating activities

Spekit streamlines learning so you can drive sales productivity, bolster enablement, and keep your data clean.

- Improve retention with embedded learning across any web-based app
- Make learning accessible with our Chrome extension sidebar
- Track progress and frequently assess understanding with Knowledge Checks

Keep everybody in the know with in-app notifications

Change happens. A lot. Spekit makes it easy for your teams to stay up-to-date with the latest and greatest.

- Notify the right people at the right time with Spotlights
- See what employees are viewing —or snoozing— with real-time analytics
- Share revised resources, sales playbook updates, and other key announcements

Free, expert-created out-of-the box training content to get you up and running quickly

Onboarding services and enablement packages led by passionate Spekit consultants

Code-free connections to many of your favorite applications and collaboration tools

The most innovative companies in the world use Spekit to reinvent learning at work
